

### Bring Your Story to Life with Joulberry this Christmas

Are you wanting to find meaningful presents for your loved ones? Why not try Joulberry jewellery this Christmas, a fusion between creative designs and unique personalisation, a perfect thoughtful gift.

This festive season we've taken our inspiration from the shining array of precious metals and the warming colours of Christmas – the simplicity of sterling silver, to the rich lustre of rose gold and the unusual patina of copper.

Our new delicate **Love Note necklace** is inspired by old love letters with curled up edges. Crafted from **9ct Rose Gold** and hung from a sterling silver chain. The precious metal is handstamped with a treasured memory, saying or simply family names. The luminous hue of the rose gold sits perfectly against skin or over the top of a favourite party outfit. Also available in silver or copper this makes a unique gift for her. Prices £95 - £475

All that glitters is most certainly gold this Christmas at Joulberry. Our stunning **9ct Gold Bolt necklace** (£400) has a raw sensuality in its simplicity. Make it forever special by handstamping a date, name or message on all four sides or just one. Celebrate becoming a couple by adding your own wording onto our **9ct Gold Sphere necklace** (£800) to always remind you of your connection.

Joulberry's ethos is to capture a precious moment in time and preserve it forever. But some moments are so special you only want to share them with your closest partner, friend or loved one. The Secret **Scroll necklace** for her and **Leather Scroll bracelet** for him make this possible by taking your most private memory and curling it into a perfect scroll so that only you and the

person receiving the gift know what it says. As well as sterling silver our designers have crafted these pieces for the first time in **copper**, a metal that makes a striking style statement and using the Joulberry signature font. Necklace from £90, Bracelet from £90.

What could be more special than taking your little ones first drawings and immortalising them forever in a pair of aptly named Scribbles Cufflinks. Our designers take your little Picasso's sketch, miniaturise it and craft it carefully onto fine silver cufflinks. Priced at £220.

All Joulberry pieces are lovingly handcrafted in our London studio and finished in our beautiful packaging. Exquisite gift wrapping is also offered on request. Joulberry can be found via its own website [joulberry.com](http://joulberry.com) and is a partner of [notonthehighstreet.com](http://notonthehighstreet.com) and [Etsy](http://Etsy.com).
